THE ADVOCACY TOOLKIT

The Advocacy Toolkit

The Advocacy Toolkit is our one-stop-shop for punchy communications so that your team is always ready to make the case for an Intersectional Feminist Recovery Plan in the most compelling way possible.

Here you will find an array of templates and key messages that your organization can use to advocate to your audience.

While this toolbox is brimming with recommendations, its true utility is as a foundation upon which your organisation may build or adapt what you need for your own context, expertise and creativity. Our advice for using this toolkit is: adopt, adapt and improve.
